that no member of the miners' union should be allowed to live in that district?" *No. sir. I never heard of any such

*Didn't you help carry out the order that all miners must be able to show a card from the Mine Owners' Association or leave

"No, I never heard of any such order."
"But you were made marshal of Victor because of your well known hatred of the Western Federation of Miners?"
"No, sir, I don't think so. I had no hatred for the federation." for the federation.

for the federation."

But you carried out the policy of the Mins Owners' Association?"

"I did what I thought was right."

Mr. Richardson asked if Major Naylor didn't order the militia to be in readiness for immediate action the night before the Independence depot was blown up. The witness said he did not and that as a matter of fact the militia was not in the field at that time. It had been dispersed thirty or forty days before that, though there was

or forty days before that, though there was one local company at Victor. This question was due to a desire on the part of the defence to get a basis for the charge that the Independence depot was blown up by the Mine Owners' Association to throw the blame on the federation.

SCHEME OF THE DEFENCE BAPPED. Major Naylor hit this scheme a hard rap by saying that one member of the local mpany of the militia was actually killed in the explosion and that two others were badly hurt.

"Well," said Richardson, "so you couldn't
"Well," said Richardson, "so you couldn't

find any excuse for ridding yourself of the Western Federation of Miners?"
"I don't know as we wanted to at that time," said the Major. "Everything was

very quiet."

He didn't know of any agreement between
the Government and the Mine Owners' Association about putting troops in the field ciation about putting troops in the field and he never took any orders from that association while he was in the militia. He was asked about the mobs that looted the union stores in Cripple Creek, Victor and elsewhere, but he said that he knew nothing about that as the troops had all gone home long before that happened. Speaking of the deportations, Lawyer Rich-

ardson asked:
"Did you ever wear one of those 'they can't come back' buttons?"

can't come back buttons:
The Major never did.
"Ever wear one of those 'undesirable citizens' buttons?" put in Senator Borah.
"He doesn't need one," put in Mr. Darrow slyly.
"There are others who do," retorted

The witness told of seeing the wreck of The witness told of seeing the wreck of the Independence station about two hours after it was blown up. He said he saw a wire leading from the wreck up to the track a way. At the far end of the wire was a chair rung around which the wire was wound. This backed up that feature of Orchard's story which described the method by which Steve Adams set of the bomb that caused the carnage. All those tilled he said, were non-union men Lilled, he said, were non-union men DIGGING UP THE PEABODY BOMB.

W. H. Schulemborg, the big rawboned fireman who dug the Peabody bomb out of the Cœur d'Alene River with his fire axe at Wallace, was next on the stand. He said that he was working on the ice of the river just at the rear of the fire house on March 15, 1998, trying to make a hole through which some refuse could be dumped into the river when his axe struck something that was frozen into the ice. He his it that was frozen into the ice. He hit it another soak and out came a big leaden case. He identified the bomb case ex-hibited as the thing that he discovered. He said that he took it into the fire house. It looked queer to him and was pretty well filled with some stuff that he could not make out. He told Sheriff Sutherland and a deputy came and took the thing away in a

"You weren't out looking for what you found, were you?" asked Lawyer Richard-"Not with a fire axe," said the fireman

tartly.

Everybody laughed, for the leaden box the fireman found contained enough dynamite to have wrecked a six story building

sheriff Sutherland, whose record shows him to be about five feet four inches of unmixed pluck, said he opened the leaden box and found that it contained about twenty-five or thirty pounds of dynamite.

He gave the dynamite away to mining prospectors and later took the leaden case down to Denver to the Pinkerton offices.

Here the case was shown to Charles T.

Roach, a plumber who had a shop at 1651 ourt place in 1904 and 1905. Roach took the stand and said that in May, 1905, a man came into his shop and told him he wanted him to make a kind of lead bucket,

ne inches in diameter and twelve inches high.
I asked him what it was for," said the plumber, "and he told me that he wanted to put a cactus plant in it. So I went ahead and made it. I wasn't there when it was delivered, and I would not be able to identify the man who bought it." Roach identified

MISS PEABODY A NERVOUS WITNESS Gov. Peabody and his daughter, who were in court, heard this testimony with a good deal of interest, and a moment later Miss Peabody took the stand. She is a pretty girl and quite the most nervous witness of the trial.

witness of the trial.

In answer to Senator Borah's question she said that early in 1904 one night she and her mother and sister went to the theatre. When they arrived home at about 11 o'clock and got out of the carriage she saw a man standing very near by.

"He was so close," she said, "that I could almost have touched him, and there was another standing directly behind him. We walked up to the porch, and the men began to walk away. We stood there and watched them, and the two men peered into the carriage as it drove past them. Then they ran down Grant avenue. We went into the house and called up a detecvent into the house and called up a detec tive office and told them what we had

Miss Peabody said that she couldn't Miss Peabody said that she couldn't identify either of the men she had seen.
On cross-examination she developed an extremely bad memory. She couldn't tell what the play was she had seen or what month of the year it was or whether she was wearing winter or summer clothes. There didn't seem to be any way in which the could fix the time of this occurrence. she could fix the time of this occurrence any nearer than to say that it was some-time between the first of January and the last of May. But her story corroborated Orchard's account of one attempt he and Adams made to kill her father.
"Were you made a Colonel of the National
Guard?" Mr. Richardson asked her.

"No," said the witness, "that was my sister."

Then you are not a Colonel?"

He testified that he lived in Canon City in May, 1905, that he knew Thomas Hogan or Harry Orchard, and remembered having seen him on the street at about that time. He also said that he was having his house repaired just then. Orchard had said that the reason he didn't kill the Governor at that time was because his intended victim gave up sitting by a certain window be-cause he was having his house repaired. Midd to everybody's surprise that ended the direct examination. Counsel for the defence concluded at

the noon intermission that they wouldn't cross-examine ex-Gov. Peabody. It had been expected that he would be asked many questions about the political conditions in Colorado at the time of the labor

A WITNESS WHO LIVED WITH ORCHARD One of the most interesting witnesses of the trial was next called. He is William J. Vaughn, now a conductor on the "Soo" railroad in Minnesota. He was the man who lived with Orchard in Cañon City While it was not brought out in his evidence, Vaughn is firmly convinced that the reason Orchard induced him to go to Canon City as an insurance canvasser was so that he could be with him wien the bomb exploded and killed Peabody and could thus prove

and kinde Peabody and could thus prove an alibi.

Vaughn told of hearing a clock tick in Orchard's grip and said he asked Orchard what it was. Orchard put him off with some joking reply. Later Orchard had the clock out of the grip and demonstrated to the witness how it would be possible to use it in setting dynamite off in a mine.

On cross-examination the witness said that both he and Orchard worked hard at the big insurance game in Cafon City but

that both he and orchard worked hard at the life insurance game in Cañon City but did not do any business. He said that when Orchard pointed out Mr. Peabody he became suspicious. "I thought he was indiscreet and I thought he was bughouse," was the way the witness put it. Later on he said "I didn't think he was a gentleman." Lawyer Richardson wanted to know when the prosecutor expects to finish his direct case and he was told that he'd better have his witnesses ready by next Wednesday. It is unlikely, however, that the State's case will be will be finished before Thursday at

Court will not reconvene until Tuesday, On Monday Judge Wood has to go to Caldwell to adjourn the trial of Orchard which was set for that date. Orchard will have to be in the Cañon county court at that time and will probably be taken down on the same train with the Judge

SEASICKNESS REMEDY FATAL. Three Children Dle of Spirits Given by a Steerage Mother.

On her way from the Mediterranean to this port the White Star liner Cretic, as is her custom, stopped at St. Michaels to take on Portuguese immigrants and cabin passengers of other nationalities She sa lectrom St. Michaels on June 7, running immediately into dirty weather. Most of the children of the steerage got very seasick the first day out from the Azores. Honorina Da Costa, aged 7; her younger brother, Agostina, and her smallest sister, Maria Josefa, were among the afflicted. The mother had been in the habit on shore of giving them a tablespoonful of spirits, called by Surgeon McMasters of the Cretic cavna and corresponding in alcoholic strength to the Russian vodka, when they had stomach or abdominal trouble. They had been very ill two days and were much weakened when the mother gave them the standard remedy.

The mothers of Maria Couto Amorin, years of age, and Francesco Couto, aged 5, also gave their little ones some of the spirits. Honorina Da Costa and Maria Couto Amorin went into alcoholic coma and never came out of it. They were buried last Sunday night. Francesco Couto died on Monday morning and was buried in the evening.

The other children recovered. The mothers did not ask the advice of the ship's surgeon before administering

the spirits. Dr. McMasters said it was the very worst thing imaginable to give alcohol to children whose stomachs were inflamed from seasickness. Some grown seasick passengers among the Portuguese were also affected by the spirits, which they took in larger quantity than the children.

THE 22D AT STATE CAMP. Engineers Take the Places of Signal Corps and Batteries at Peckskill.

PEEKSKILL, N. Y., June 15.-The Twentysecond Regiment engineers, N. G. N. Y., came to the State camp to-day for seven days instruction. They left their armory in New York this morning and came by special train, arriving a little after noon.

Col. Walter B. Hotchin is in command of the Twenty-second and has with him a of the Twenty-second and has with him a full complement of officers, altogether so? officers and men out of an enrolment of 757. There will be no military work to-morrow except the guard mount in the morning and the evening parade. The real work will begin on Monday. It was mapped out at a conference to-night between Capts. M. J. McDonough, J. A. Woodruff and Charles W. Kutz, who are here with seventy-eight regulars from the engineers corps at West Point.

The regimental chaplain, the Rev. Richard

The regimental chaplain, the Rev. Richard Cobden, rector of St. John's Episcopal Church, Larchmont, is here and will hold services in the mess hall at 10:30 to-morrow morning. In the Y. M. C. A. tent in the evening J. G. Hallimond of New York will receive the services of the control of t

fire started in a mattress on the third floor front of 55 Cherry street last night.

floor front of 55 Cherry street last night. John Carr and his wife Mary were in bed and John tumbled out so quickly when he was singed that he hurt his head. [He and his wife both had their hands burned trying to put out the flames. The firemen did that quickly enough.

On the same floor in the rear Blind Dan Hogan and his wife were awakened by the noise of the fire engines. Hogan, who is a neighborhood character, was frightened by the fire near by, and after his wife went for a glass of water at his request he fell dead. Hogan ran a sailor's boarding house until he became blind about twenty years ago.

years ago. TO HOSPITAL IN BUGHER'S AUTO. Police Deputy Sees Man Get Hurt and Does Not Walt for Ambulance.

Fred Smith, a bookbinder, was on his way to Coney Island last night when at Sixth street and the Bowery he stuck his Sixth street and the Bowery he stuck his head too far out of an open car. Smith's head hit an elevated railway pillar and he fell unconscious to the street. Deputy Police Commissioner Bugher was passing in his automobile and he picked up Smith and put him in the machine. Just then Policeman Bishop of the Fifth street station ran up and yelled:

"Hey, where you goin' with that man?"

Commissioner Bugher reached out and yanked the cop into the automobile, saying:

"To St. Vincent's Hospital; come along."

The cop went. Dr. Strain fixed up a scalp wound and the bookbinder went home.

FRANCE PICKS U. S. EXPERT

DR. WILEY TO INVESTIGATE WINE

ADULTERATION. Chief of Division of Chemistry in Department of Agriculture to Sall for Europe Thic Week-Has Served on Jury on

French Wines-Secession of the Midi. WASHINGTON, June 15 .- Dr. Harvey W. Wiley, chief of the division of chemistry in the Agriculture Department, has been engaged by the French Government to make a scientific inquiry into the charge that French wines have been grossly adulter-

ated Dr. Wiley will sail for France next The invitation to him from the French Government was the outcome of the agiation among the distressed wine growers and vineyard workers, several hundred thousand of whom are in an impoverished condition owing to the great falling off in the demand for French wines, which

they attribute to gross adulteration prac-

tised by manufacturers. Dr Wiley has a worldwide reputation as a chemist. He has made a specialty of food adulterations and has not hesitated to declare that certain brands of wines and liquors were adulterated. The pure food law recently enacted by Congress was due mainly to his efforts.

Dr. Wiley has had personal experience in France in connection with the examination of French wines. In the Paris Exposition of 1900 he was a member of the jury of awards in the wine competition. He is an bonorary member of the French Société Alimentaire and was a delegate from the United States to the international congress of applied chemistry, held in Paris in 1900. Wiley expects to spend six weeks in

Paris, June 15.—The condition of affairs presented in southern France to-day is one of the most extraordinary. It would be scarcely conceivable in any other country in the world. There is unqualified sedition. almost secession, while with an irony which would be ridiculous if it were not pathetic the most active of these revolutionaries profess loyalty to the Republic.

A sinister farce is too mild a characterization for the Midi performances. A whole section of France is in revolt. It has severed official communication with the central authority at Paris and under the leadership of an agitator has said to the Government. the Chamber of Deputies and the country

"We'll run our own affairs and have nothing to do with you unless you enable us to live by wine growing." That is the present situation in a nut-

It matters not how from varied points of view one may say that generally these fits of agitation in France are farcial. This time the spectacle produced is remarkable and unprecedented and may be serious. Both the Government and the Chamber realize the Midi's distress. Both are desirous of ameliorating the condition but the difficulties in the way are enormous. Regional interest must be reconciled if legislation is to accomplish amelioration and the Midi insists that amelioration must come in that way. Americans would turn their fields to other tillage. The grandiose, simple, mediæval, almost patriarchal Meridionaux will not think-they are unable to think-of such a practical, modern, progressive amendment of their habits of life.

The Government, which is Premier Clemenceau, has not tried to shift the responsibility upon the Chamber. The Chamber is grateful and is quite willing to leave the Government a free hand so long as possible. In the meantime the anomalous situation | part in the play. of four departments repudiating governmental authority, boycotting Paris and obeying local dictatorship intensifies itself | parently enjoyed it. "Raffles" is a novelty absurdity

Northern France is industrious, thrifty and progressive. Southern France is improvident and joyous in its spendthrift exuberance of natural abundance. Premier Clemenceau's dilatory policy is due to his knowledge of the Meridional character. the Midi's neighbor. Var He hopes to persuade the Meridionaux by the logic of common sense, but he talks to men who have been unable to pay the bills for the erection of buildings for eighteen months who temperamentally are capable to-day of arousing themselves in emotional en thusiasm to a modern crusade or to follow

prophet to the point of fanaticism. Not to precipitate such a catastrophe and at the same time to preserve the integrity of the country's central authority is the task before M. Clemenceau which presses more urgently every day Nobody knows at present whether a rational solution will be found to restore calm or whether an upheaval will follow the Midi's tremenmus economic demonstration

The Government has retired the Colonel of the 100th Regiment owing to a breach of discipline which occurred at Narbonne on June 9. Several other officers have been transferred for the same cause. The regiment will not return to Narbonne

Indiscipline is also reported in the Twelfth Line Regiment at Perpignan. Some of the men sang the "Internationale" as a protest against continued confinement in the barracks owing to labor meetings.

The Procureur-General of Montpellier has been summoned to Paris for consultation in regard to the Midi situation. His report will decide whether the Government will take action against the ringleaders.

The Tocsin, the official organ of the committee at Argelliers, published this evening a reply to M. Clemenceau assuring him that if he guarantees that the laws, new and old. will be resolutely carried out calmness will be restored at once. The committee, however, explained later that this reply was premature and had been published by mistake.

The Government's anti-fraud wine bill will reach the articles dealing with the sugar tax on Monday. The Northern and Midi Deputies met to-day to try to reach an agreement. The Northern Deputies are willing to pay an increased tax on raw sugar if the tax on refined is reduced. The Midi Deputies would not agree to this. The point in question may wreck the bill.

LORD GRANVILLE GORDON DEAD. Corespondent in His Cousin's Divorce Suit Against American Wife.

Special Cable Despatch to TRE SUN LONDON, June 15 .- Lord Granville Gordon died to-day on board a P. & O. liner between Suez and Aden. His death recalls the sensational divorce case of four years ago wherein he was named as corespondent his cousin, Eric Gordon, and in which the respondent was before her marriage to Eric Mrs. Fred Close of Minnesota nee Miss Jennie Humble.

After the divorce she married Lord Granville Gordon and caused a sensation by smuggling her little daughter out of the legal custody of her former husband by taking her to France on a specially chartered tug. The child was dressed at the time as a boy.

ART WONDERS DISCOVERED. Book and Bust of Historic Interest Re

ported to Academy of Inscriptions. Special Cable Despatch to THE SUN. Paris, June 15.—The Academy of Inscriptions has learned of the discovery of

two rare works, a book and a bust. The book, which has been acquired by J. Pierpont Morgan, is a magnificent pontifical or book of ceremonies conducted by a Bishop executed about 1500 by order of Cardinal Giuliano della Rovere, afterward Pope Julius II. It is ornamented with many miniatures, the most beautiful having been painted by the celebrated Francesco Dai Libri of Verona and his son, Girolamo.

The bust is that of the Emperor John Paleologus VIII., made during his attendance at the Council of Florence in 1439 by Averlino, the maker of the famous bronze doors of St. Peter's. This was discovered a few weeks ago in the museum of the Propaganda. It is said to be the most ancient bust portrait known whose exact date can be fixed.

PATRIOTIC ARSON.

German Town Finds Cheap Way to Rebuild Itself Into Beauty.

Special Cable Despatch to THE SUN. BERLIN. June 15. The German town of Siebenlehn is now the scene of a criminal trial presenting a feeling of civic patriotism blended with greed that has seldom been paralleled.

It seems that many private houses and ther buildings in the town are being rebuilt in order to improve the appearance of the streets. The buildings are fully insured and are then marked down for gradual destruction by fire.

The town firemen, who are now on trial for incendiarism, alleged that the Mayor himself indicated the buildings to be fired in their order. If the fire brigades came from neighboring places they always found that their hose and engines came to grief. When the owners of the buildings de-

stroyed by fire drew their insurance money cheerful feast was held, at which the fire origade members were guests, and a percentage of the spoils was divided with them. The trial has been in progress sev eral days and is not yet finished

ACAJUTLA RAID CLAIM.

English Railroad Manager Says It Was Made Under Nicaraguan Flag.

Special Cable Desputch to THE SUN SAN SALVADOR, June 15 .- According to the manager of the English railroad company, he has officially entered complaint to his Government concerning recent depredations by Nicaraguan troops. He says that the Nicaraguan gunboat Momotombo, with the flag of that republic flying at her masthead, appeared off Acajutla, Salvador, and seizing tugs and launches owned by the company landed 800 troops.

On June 11 the soldiers went to Sonsonate y train, but they were unable to carry out their filibustering plans at that town owing to the presence there of a considerable body of Salvadorean soldiers, who opened fire and compelled the marauders to retreat.

The next day about noon the raiders disembarked after looting a number of stores at Acajutla and steamed away, taking one of the company's steam launches and three large rowboats with them.

"RAFFLES" IN GALLIC STYLE. American Play Has Novel Features for Parisians and for Americans Likewise.

Special Cable Despatch to THE SUN. PARIS, June 15. - An American play was osen to open the summer season in Paris at Réjane's Theatre. "Raffles" had its première there to-night. Mme. Réjane was present, but she does not take any

WASHINGTON ENDS ALTON DEAL

BROAD HINT TO ROCK ISLAND THAT IT WAS ILLEGAL.

Rock Island Parties Were Not Sorry to Have Another Reason for Breaking Off the Agreement With Harriman, but Would Have Stuck to It But for the Hint.

According to a Rock Island director a road hint from Washington that the Harriman-Rock Island agreement providing for alt-rnate control of the Chicago and Alton Railroad was regarded as illegal led to the abrogation of the agreement. The word which came from Washington, according to this man, plainly intimated that if the agreement was not broken voluntarily some action would be brought by the Government to annul it.

The Harriman lawvers held that the agreement did not infringe on the Sherman anti-trust law, but the Rock Island people, it is said, stood out firmly against any clash with the Federal authorities. No one denies that the Rock Island people saw a good opportunity to make the best of a bad deal and break away from the Harriman alliance, but it was said positively yesterday that the Rock Island party would have stood by the agreement until 1914 were it not for the intimation from Washington.

It is practically certain that Harriman will make no contest for the control of the property at the annual meeting in October The announcement made on Friday that the Union Pacific and the Rock Island parties had agreed to leave the question of control with the floating stockholders is regarded in Wall Street merely as a polite 'letdown" for Harriman. Wall Street ciphered it out yesterday that the Rock Island lacks control of the Alton by less than 4,000 shares, and there is no doubt that men interested in the Rock Island have sufficient additional stock to insure a majority interest.

Washington, June 15 .- Opinions vary among the authorities here as to what effect the action of the Union Pacific and the Rock Island Railroad companies in abrogating the agreement whereby they exercised joint control over the Chicago and Alton will have on the determination of the Government, reached a week or so ago at the White House, to break up, under the provisions of the anti-trust act, the com-

provisions of the anti-trust act, the combination that was alleged to be an unreasonable restraint upon interstate trade.

Two interpretations are put upon the action of yesterday. The first is that it foreshadows a bitter fight between Moore Brothers and E. H. Harriman; and, secondly, that the abrogation of the Union Pacific and Pack I leave to the combined to th and Rock Island control over the Alton was urely a bluff.

Among certain officials here the position

Among certain omerais here the position is maintained that while the agreement of the Union Pacific and the Rock Island for joint control of the Alton was clearly a violation of the provisions of the Sherman anti-trust act no useful purpose would be served in instituting proceedings to dissolve an agreement that has already been cancelled. The agreement has been torcancelled. The agreement has been terminated, it is argued, and that is all that was sought to be accomplished in the suit

in course of preparation.

On the other hand, there are officials who believe that the action should now be brought against the Rock Island, it being admitted by the officers of that sys-tem that it now holds a controlling interest in the Alton. The two roads are competing, and as they are about to be operated by a common management, they are open to the charge of restraining competition. Whether such restraint is reasonable or unreasonable can only be determined by investigation.

TWO MEN AT WOMEN'S DINNER Daniel Offiver Guest in Chief of White Bill Opponents.

There is at least one man in New York who believes in the promises of women. He is Daniel Oliver, and he is chairman of the local school board in the First district. The women who are responsible for his newly acquired faith in the truthfulness of their sex are seven members of the Teachers' Protective League, and they attained their present high status in his regard by the method which woman has for untold ages employed to disarm the prejudices of man. They gave him a dinner at the Café des Beaux Arts. They did more. vited twenty-five other women to meet him, and they also invited several other men to

cation, put in an appearance. It all came about in this way When on May 20 Miss Rose Strachan marshalled her forces for an attack on Mayor McClellan in the interests of the White bill these seven, headed by Mrs. Silas P. Leveridge, who is also a member of the local school board, were the sole opponents of the bill.

witness his triumph. Of these, however only one, Mr. Friefeld of the Board of Edu-

Mr. Oliver was so impressed that he sought and obtained the privilege of acting as host to the "Antis at a restaurant on Park Row. It was upon this occasion that one of his guests remarked impulsively, "If the White bill is defeated we will give you

Mrs. Leveridge carefully explained that and was not in any sense a celebration of the defeat of their adversaries.

Mrs. Leveridge occupied the central place at the speakers' table, and on either side of her sat Mr. Oliver and Mr. Friefeld. Next to Mr. Oliver sat Miss Ella Conway, principal of School 97, who presided at the famous "Normal School Meeting," and on Mr. Friefeld's right was Miss Susan Griffin, principal of School 88, who made several ineffectual attempts to speak upon that memorable occasion.

When it was established beyond all question that the appetite of the guest of honor had been entirely satisfied, Mrs. Leveridge read extracts from an original epic poem which set forth the history of the recent struggle and glorified its heroes. Then she introduced Mr. Friefeld, who, after speak ng at some length of what he termed Mrs. Leveridge occupied the central

speak ng at some length of what he termed "the unpleasant features of the 'cr paign,' said that he was not one of the who believed that it had done no good.

who believed that it had done no good.

The agitation, he continued, had brought not only the Board of Education but the public face to face with the fact that the existing salary schedule was distinguished by many inconsistencies and much unfairness, and it would therefore be practically obligatory upon the Board of Education to revise the schedule in the very near future and equally obligatory upon the Board of Estimate and Appor-tionment to furnish the funds necessary for such revision. Great applause followed

JOSEPH APPLEGATE'S WILL. Casket Manufacturer Left a \$700,000 Estate-Daughter Chief Beneficiary.

Brooklyn on May 7 in his ninety-fourth year, leaving a fortune of more than \$700,000. made in the manufacture of funeral caskets. was offered for probate yesterday.
With the exception of about \$100,000, distributed among the grand nephews and nieces of the testator, the entire estate is queathed to his daughter. Ida Applegate

Now is the Time to Arrange for a

Pianola Piano

For Your Country Home This Summer

TORMY weather will not mean a cessation of summer pleasures if you have a Pianola Piano. It will provide an unending source of interest for every member of the family and for every guest at the house party.

Many of the finest country homes are already equipped with the Pianola Piano, and each year witnesses an increasing demand.

Our monthly payment system makes it possible to secure immediate ownership without encroaching too much upon the appropriation for the summer's pleasures.
